EDUCATION

Sathyabama Institute of Science and Technology

Bachelor of Computer Science and Engineering CGPA: 7.35/10

Sep. 2021 – May 2025

Chennai, Tamil Nadu

TECHNICAL SKILLS

- **Languages** - Java, Python, SQL
- **Data** - Data Cleaning, Data Validation, SQL Queries, Data Analysis
- **Tools** - MS Excel, Power BI, Git, GitHub, PuTTY, WinSCP
- **Web Technologies** - HTML, CSS
- **Editors and OS** - VS Code, Jupyter Notebook, Linux
- **Cloud & Networking** - Microsoft Azure, Virtual Machines, TCP/IP, OSI

INTERNSHIP

MethodHub Software

Data Practitioner Intern

November 2025 – Present

Chennai, Tamil Nadu

- Applied core concepts of SQL, Linux operating systems, networking, and Microsoft Azure cloud fundamentals.
- Worked with Azure virtual machines for basic instance creation, configuration, and monitoring.
- Configured networking concepts including IP addressing, OSI layers, and secure access controls.
- Used PuTTY and WinSCP to securely access and manage Linux-based cloud servers.
- Prepared weekly technical transcripts covering RDBMS concepts, switching, routing, and process synchronization.
- Participated in team meetings, webinars, and technical discussions to gain real-world industry exposure.

Lemonpeak Technologies (Front End Development)

Web Development Intern

October – December 2023

Chennai, Tamil Nadu

- Contributed to developing an online e-commerce platform with user-friendly and responsive design.
- Collaborated with the team to build clean and optimized web pages ahead of deadlines.
- Reused front-end components to streamline development and maintain consistency.
- Implemented catalog and cart functionality using HTML, CSS, and JavaScript.
- Integrated SQL database for product inventory, order tracking, and customer data management.
- Improved site performance by reducing load times and ensuring cross-browser compatibility.

PROJECTS

Sentiment analysis using machine learning in traditional language

2025

- Developed a speech-based sentiment analysis system capable of accurately identifying emotions such as happy, sad, and neutral from voice input.
- Extracted advanced audio features using MFCC and STFT techniques, and implemented LSTM models for precise emotion classification.
- Integrated Tamil-to-English voice translation using the Groq API, deploying the system as an interactive web application with Flask and HTML/CSS.

CERTIFICATIONS

Cisco : Networking Basics (2026)

Udemy : Azure Cloud Fundamentals (2026)

QSpiders :Java Full Stack course and Soft skill training (2025)

IBM :SQL and Relational Databases 101 (2023)

LEADERSHIP / EXTRACURRICULAR

Mega Foundation Project – Event Coordinator

2024

Sathyabama university, Chennai, Tamil Nadu

- Organized and managed a college event addressing real-world environmental challenges in collaboration with Mega Foundation.
- Conducted a drone survey to assess a dead river, mapping its area and identifying key problem zones.
- Calculated and analyzed the total number of unwanted gum arabic trees to support ecological restoration planning.
- Coordinated a team of volunteers, delegating tasks and ensuring timely completion of data collection and reporting.
