PROFESSIONAL SUMMARY

Cloud Engineer with hands-on experience in designing, deploying, and managing cloud-native applications on **Microsoft Azure**. Experienced in **Azure Virtual Machines**, **Docker**, **Docker Compose**, **Azure Container Registry (ACR)**, **Nginx**, Linux administration, **PostgreSQL**, and Git-based deployment workflows. Worked extensively on containerizing applications, configuring reverse proxies, deploying **Apache Superset**, troubleshooting production environments, and managing cloud infrastructure. Proficient in **Python**, **Java**, **SQL**, **REST APIs**, and CI/CD fundamentals. Passionate about building scalable, secure, and reliable cloud solutions while continuously improving automation and deployment processes.

EDUCATION

Sathyabama Institute of Science and Technology

Bachelor of Engineering in Computer Science and Engineering CGPA: 7.35/10

Sep. 2021 – May 2025

Chennai, Tamil Nadu

TECHNICAL SKILLS

- **Cloud** – Microsoft Azure, Azure Virtual Machines (VMs), Azure Container Registry (ACR), Azure Container Apps, Azure DNS, Azure Resource Groups, Azure CLI
- **Containers & Virtualization** – Docker, Docker Compose, Docker Buildx, Containerization
- **DevOps** – Git, GitHub, GitHub Actions, CI/CD, Nginx
- **Programming** – Python, Java, SQL, JavaScript, HTML, CSS
- **Frameworks** – React, Vite, Flask, REST APIs
- **Databases** – PostgreSQL, MySQL
- **Operating Systems** – Ubuntu Linux, Windows
- **Networking** – TCP/IP, DNS, HTTP/HTTPS, SSL/TLS, Reverse Proxy, Load Balancing Basics
- **Tools** – VS Code, Postman, PuTTY, WinSCP

PROFESSIONAL EXPERIENCE

MethodHub Software Pvt. Ltd.

Cloud Engineer

May 2026 – Present

Chennai, Tamil Nadu

- Deploy and maintain cloud-native applications on **Microsoft Azure** using **Docker**-based deployments.
- Build and manage **Docker images** using **Docker Buildx** and publish images to **Azure Container Registry (ACR)**.
- Configure and maintain **Nginx reverse proxy** for frontend, backend, and **Apache Superset** services.
- Deploy and manage **Apache Superset** dashboards using **Docker Compose** and **PostgreSQL** metadata databases.
- Configure custom domains, **DNS records**, **SSL certificates**, and reverse proxy routing for production environments.
- Troubleshoot production issues related to **Docker containers**, networking, authentication, environment variables, and application deployment.
- Manage **Linux servers** through **SSH** for application deployment, maintenance, and debugging.
- Collaborate with development teams to deploy new releases and validate production environments.
- Work with **Git** and **GitHub** to manage source code, feature branches, releases, and deployment workflows.

MethodHub Software Pvt. Ltd.

Cloud & Data Practitioner Intern

Nov 2025 – May 2026

Chennai, Tamil Nadu

- Provisioned and managed **Azure Virtual Machines** including instance creation, OS disk configuration, network interface setup, and resource group organisation.
- Configured **NSG rule sets** with multiple inbound/outbound firewall rules across **VNet** and subnets, ensuring secure and compliant VM access.
- Developed REST APIs using **Python** and **Flask** for cloud-based applications.
- Integrated **PostgreSQL** databases with backend applications and performed database configuration and troubleshooting.
- Performed **Linux server** administration using **SSH** and managed application deployments on **Ubuntu** servers.
- Containerized applications using **Docker** and **Docker Compose** for development and deployment environments.
- Worked with **Git** and **GitHub** for version control, branching strategies, and collaborative development.
- Resolved deployment issues related to networking, authentication, environment variables, and cloud infrastructure.

PROJECTS

Arrows Platform Deployment on Microsoft Azure

2026

- Containerized a **React + Vite** frontend application using **Docker** and deployed it on **Azure Virtual Machines**.
- Built multi-platform **Docker images** using **Docker Buildx** and published them to **Azure Container Registry (ACR)**.
- Configured **Nginx** as a reverse proxy to securely route frontend, backend, and **Apache Superset** traffic.
- Configured environment variables, application routing, and production deployment settings for cloud-hosted services.
- Configured custom domains, **DNS records**, **SSL certificates**, and resolved deployment issues related to authentication, networking, and container communication.
- Collaborated with developers to deploy production releases, troubleshoot infrastructure issues, and validate cloud deployments.

Apache Superset Containerization and Dashboard Deployment

2026

- Containerized **Apache Superset** using **Docker Compose** with **PostgreSQL** metadata database and **Redis** services.
- Configured dashboard embedding using **Guest Token** authentication and integrated Superset dashboards into cloud applications.
- Configured **Nginx reverse proxy** for **Apache Superset** and resolved routing, authentication, and session management issues.
- Troubleshot database migration failures, **Docker** networking issues, environment variable configuration, and production deployment errors.
- Managed **Docker** containers, images, volumes, and persistent storage while maintaining cloud-hosted analytics services.

Tamil-to-English Voice Sentiment Analysis

2025

- Developed a **Flask**-based web application to translate Tamil speech into English text using the **Groq API**.
- Implemented sentiment classification using an **LSTM** model with **MFCC** and **STFT** audio feature extraction techniques.
- Integrated **REST APIs** with **PostgreSQL** to support real-time prediction and data storage.

CERTIFICATIONS

- **Microsoft Azure Fundamentals (AZ-900)** – In Progress
- **Cisco** – Networking Basics (2026)
- **Udemy** – Azure Cloud Fundamentals (2026)
- **IBM** – SQL and Relational Databases 101 (2023)
- **QSpiders** – Java Full Stack Development (2025)

LEADERSHIP / EXTRACURRICULAR

Mega Foundation Project – Event Coordinator

2024

Sathyabama Institute of Science and Technology

Chennai, Tamil Nadu

- Led a **multidisciplinary** student team in planning and executing an environmental conservation project in collaboration with the **Mega Foundation**.
- Coordinated task allocation, progress tracking, and technical documentation to ensure timely project completion.
- Conducted **drone-assisted** field surveys and collaborated with team members to collect and analyze environmental data.
